

THE HAMMER-GROUP

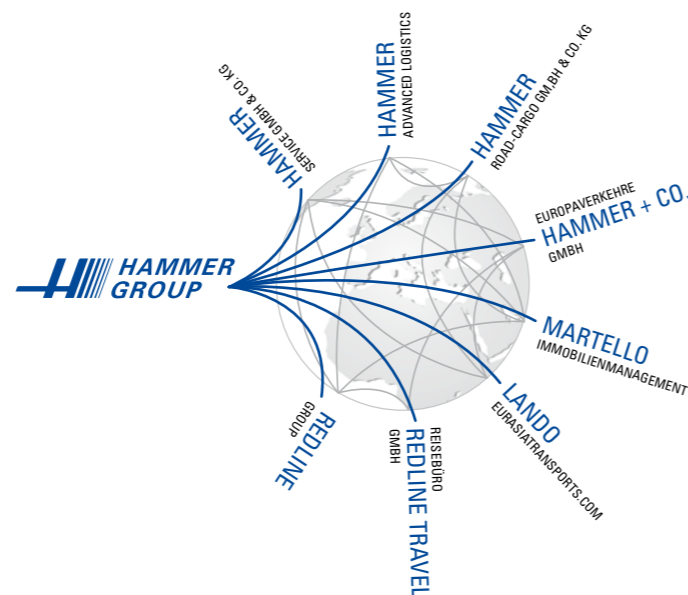

The Hammer-Group is a symbiosis of logistics companies and functionally related areas with its headquarters in Aachen. The group has access to 300 vehicles, employs 700 staff members and generates an annual turnover of 135 million Euros.

We offer comprehensive services:

- customized worldwide land transport with own equipment
- air and sea transport with own customs warehouse
- security transport, silo and bulk material transport
- heavy load transport and transport of machines and plants

We cover all specific logistics services to increase your supply chain performance by integrated IT-solutions for all merchandise management systems!

LANDO – TRUST IN EXPERIENCE

BULK AND WASTE-TRANSPORT

We, as your experienced partner provide for transport of your products to their destination by using a vehicle fleet consisting of silo, dump and tarpaulincovered trucks and a European-wide direct traffic network.

We are aware that the logistics trade is a market that constantly undergoes changes and innovations. By regular certification according to ISO 9001:2015, SQAS and GMP, we assure our customer efficient logistics on highest level.

For many years we have also pursued an environmental policy with clearly defined targets, which of course are also certified according to ISO 14001:2015.

HAMCO – QUALITY. SERVICE. SAFETY.

Fulfillment, Transport logistics and IT-Logistics 4.0

Hammer manages all of your transportation in a market that constantly undergoes changes and innovations. You can be confident that our direct routes bring you closer to your procurement and distribution markets all over Europe every day.

Through our holistic approach, we cover all the specific requirements across the sector and stand out in providing you with the crucial leading edge that is needed to enhance performance along your supply chain.

Due to the expert competence of our IT-specialists, who provide you with maximum transparency and supply chain visibility, we can offer integrated services along the entire supply chain.

A unique security concept offers maximum flexibility and reliability in the LTL and FTL transport area. Highest TAPA standards and a proven service level of >99% underline our company's philosophy and have considerably contributed to the company's success.

The company portfolio extends from transport, transshipment, storage and distribution to value added services, customs clearance, transport control, IT-solutions and e-commerce.
